### **DETAILED ACTION**

This communication is responsive to amendment filed on October 09, 2008.

#### ***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul Teng on December 17, 2008.

The application has been amended as follows:

**Withdrawn claims 9-16, 25-32 and 36-37 are canceled.**

Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

#### ***Allowable Subject Matter***

1. Claims 1-8, 17-24, 33-35 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-8, 17-24, 33-35 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said

prior art which teaches a synchronization signal generator and a method of generating a synchronization signal comprising means for or steps of generating a clock signal by dividing a frequency of a high-frequency clock so as to generate pulses of a reference period, a long period longer than the reference period and a short period shorter than the reference period, and outputs, as the pixel clock, one of the pulses that is designated by an output selection signal; synthesizing a first selection signal, which is generated base on a time-series distribution of the pulses of each period defined by a first set of data, and a second selection signal, which is based on a time-series distribution of the pulses of each period defined by a second set of data, so as to generate the output selection signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Nihei et al (US Publication No. 2003/0025785) discloses a pixel clock pulse generating apparatus for use in an image forming apparatus including high frequency clock pulse and pixel clock pulse generators.
